

THE STAGE-DRIVER'S STORY.

How General Scott's Life was Saved
and How His Driver Twice
Escaped Death.

The traveler of the present day, as he is hurried along by the lightning express, seldom reverts in his mind to the time when the stagecoach and packet were the only means of communication between distant points. It is rare that one of the old-time stage drivers is met with now-a-days and when the writer recently ran across Fayette Haskell, of Lockport, N. Y., he felt like a visitor, for he had discovered a new volume of "forgotten lore." Mr. Haskell, although one of the pioneers in stage driving (he formerly ran from Lewiston to Niagara Falls and Buffalo), is hale and hearty and bids fair to live for many years. The strange stories of his early adventures would fill a volume. At one time when going down a mountain near Lewiston with a passenger (than General Scott as a passenger, the brakes gave way and the coach came on the heels of the wheel horses. The only remedy was to whip the leaders to a gallop. Gaining additional momentum with each sway and pitched down the mountain side and into the streets of Lewiston. Straight ahead at the foot of the steep hill flowed the Niagara river, towards which the four horses dashed, apparently to certain death. Yet the firm hand never relaxed its hold nor the clear brain its command of what must be done in the emergency. On dashed the horses until the narrow dock was reached on the river bank, when by a masterly exhibition of nerve and daring, the coach was turned in scarce its own length and the horses brought to a stand still before the pale lookers-on could realize what had occurred. A purse was raised by General Scott and presented to Mr. Haskell with high compliments for his skill and bravery.

Notwithstanding all his strength and his robust constitution, the strain of continuous work and exposure proved too much for Mr. Haskell's constitution. The constant jolting of the coach and the necessarily cramped position in which he was obliged to sit, contributed to this end, and at times he was obliged to abandon driving altogether.

Speaking of this period he said: "I found it almost impossible to sleep at night; my appetite left me entirely and I had a tired feeling which I never knew before and could not account for."

"Did you give up driving entirely?"

"No, I tried to keep up but it was out of the question. This state of things continued for nearly twenty years, until last October, when I went all to pieces."

"Is that what?"

"Oh, I doubled all up; could not walk without a cane and was incapable of any effort or exertion. I had a constant desire to urinate by day and night and although I felt like passing a gallon every ten minutes only a few drops could escape and they thick with sediment. Finally it ceased to flow entirely and I thought death was very near."

"What did you do then?"

"What I should have done long before, listen to my wife. Under her advice I began a new treatment. And with what result?"

"Wonderful. It unstopped the closed passages and what was still more wonderful regulated the flow. The sediment vanished; my appetite returned and I am now well and good for twenty more years wholly through the aid of Warner's Safe Cure, that has done wonders for me as well as for so many others."

Mr. Haskell's experience repeated every day in the lives of thousands of American men and women. An unknown evil is undermining the existence of an innumerable number who do not realize the danger they are in until health has entirely departed and death perhaps stares them in the face. To neglect such important matters is like drifting in the current of Niagara above the Falls.

Forest Fires.

Kington, Ont., 2.—There are great fires in several adjacent townships, numbering perhaps 100. The fire in McGill settlement is a couple of miles square, and still spreading. Near the Mississippi River about a mile from the railroad station, the fire is said to cover thirteen miles one way and three miles the other. McLaren mills and an immense stock of lumber are surrounded by fire.

Great Run on a Well-Known Institution.

The famous Patent Medicine Dispensary of Charles N. Crittendon, New York, has recently been subjected to an extraordinary pressure of the press of crowds of sufferers from Coughs and Colds in search of "Hale's Honey of Horehound and Sassafras." The popularity of the medicine is boundless, and will last, for it is built on the solid foundation of innumerable cures. Crittendon's establishment might properly be called a Savings Bank from the number it has been instrumental in saving from Consumption. Trenchant affections of every type vanish under its balmy and balsamic influence with astonishing rapidity. Sold by all druggists. Ask for large size, price \$1, they are much the cheapest. New York Mining Stocks

New York, 2.—There was moderate business in mining stocks during the morning and prices ruled only steady. Sales included Almah at 30, Chrysolite 87, Consolidated Pacific 43, Barren at 60, Iron Silver 98 to 1.00, Seneca 64, Standard 89, Sierra Grande 20 and Navajo 40 to 10.

Wall Street.

New York, 2.—Stocks stronger, higher advanced 1/4 to 1/2. St. Paul pd. rose 4 Central Pacific 1 1/2, Northwestern 1 1/2, Lackawanna 1 1/2, Lake Shore 1 1/2, Pacific Mail 1 1/2. Transactions on a large scale, all leading stocks taken with confidence; borrowing demand improved, active, stocks lent 1 1/2 to 3/4 premium for use.

Stocks buoyant, very active; for the past hour shorts were badly punished and could not get brokers enough to transact their business; bears were much alarmed at the change in temper of speculation, which has been brought about by heavy purchases for Vanderbilt, Gould and White interest, favorable crop reports, substantial improvement in export trade and probability of gold imports.

Stocks lower this afternoon on sales to realize on Union Pacific fall to 3 1/2 %.

Northwestern to 8 1/2 %, Lake Shore to 7 1/2 %, Lackawanna to 1 1/2 %, Northern Pacific pd. to 4 1/2 %, near the close there was a rally of 1/4 to 3/4 %, market closing strong.

Governments higher for 1/4; railways strong, Texas Pacific rose up to 45 on some official reports that August coupons will be paid, stocks buoyant and excited to day; bears were much alarmed at the turn in affairs and round amounts of leading shares were taken with confidence on foreign account, purchases being due mainly to the fact that few important railway corporations defaulted on their July interest charges. Reports from grain growing regions were of a favorable nature, and this, with the published views of Vanderbilt on the situation had much to do with the improvement. Vanderbilt and Gould, while they were buyers throughout in early dealings, bears rushed in to cover, and their haste bid prices upon themselves; the advance, as compared with last night's closing figures, ranged from 1 to 5 per cent. In the afternoon there were sales to realize and prices fell off 1/4 to 1 per cent. in general list and 2 1/2 in Union Pacific. Near the close a firmer tone prevailed and there was a rally of 1/4 to 3/4 per cent.; the market closed strong. Compared with last night closing prices are 1/2 to 7 per cent. higher; Union Pacific unchanged.

The Plumed Knight.

Waterville, Me., 2.—The commencement dinner at Colby University, to-day, was an elaborate affair. Professors Pepper, Caldwell and Fernand made brief speeches. Blaine being called upon, was given a most enthusiastic greeting. He seemed to feel deeply this demonstration, and said in substance: "I am deeply indebted to you for the welcome you have given me. Thirty years ago I first came to this college to a commencement. Since then I have been present from time to time: I have watched closely the crowd assembled here, and have noted the hearty and healthy growth of the college, not surpassed by any college in New England. I miss from this gathering your friend and my friend Abner Coburn. He then paid a tender and touching tribute to Mr. Coburn, as his friend and adviser in past years, and as a benefactor not only of Colby, but of many meritorious objects entitling him to be called a philanthropist. He said he had not heretofore been in favor of coeducation, but the evidence of the past few days had more than half convinced him of the wisdom of it. He then congratulated Dr. Pepper, upon the weight of increased care placed upon him by the enlargement of Colby's influence and power. Blaine returned to Augusta.

Foreign Notes.

Paris, 2.—There are 115 cholera patients in the hospitals at Toulon. At Marseilles there is a better outlook than during the past few days.

Havana, 2.—The boiler of the Spanish man-of-war, Ligero, exploded at Las Neuvitas to-day with great violence. Three persons were killed and five severely injured.

Lebanon, 2.—In the Election riots on the Cape Verde Islands several persons were killed and wounded. The military restore order and the government candidates were triumphant.

Rome, 2.—The sanitary condition of cities and towns in Italy is good. The government refuses to allow Sicily to prohibit English vessels touching at Sicilian ports.

Pacific Points.

San Francisco, 2.—United States Surveyor General Brown has discharged to-day thirty-five employees in his department through the failure of an appropriation of money for their salaries.

It is rumored the Golden Age flouring mills have failed. A meeting of creditors will be held to-morrow when an assignment will probably be made. Liabilities are estimated at \$100,000. The French Savings Bank is the largest creditor for \$18,000. The failure is attributed to depreciation in prices at Liverpool.
